

Statutes of the Nordisk Film & TV Fond

Determined by the Nordic Council of Ministers (the culture ministers), 22 April 2021.

§ 1 PURPOSE

1. The purpose of the Nordisk Film & TV Fond, henceforth referred to as the Fund, cf. Agreement of 21 May 2019, is to promote the production and distribution of Nordic audiovisual works of high quality, in accordance with the rules laid down in these statutes and in administrative guidelines.

§ 2 SPHERE OF ACTIVITY

1. The Fund can participate in the financing of Nordic audiovisual works of high quality, including all forms of fiction (feature films, television drama, television series, animation, etc.), as well as creative documentaries suitable for cinema release, TV viewing and/or other forms of distribution on various platforms, and which are considered to have significant market/audience potential in the Nordic Region.

2. Productions aimed at children and young people will be prioritised.

3. Support for voice-overs of productions aimed at children and young people will also be prioritised.

4. In exceptional cases, the Fund may participate in the financing of productions that are not deemed to have significant audience potential, but which are otherwise within the Fund's sphere of activity.

5. The Fund prioritises support for the distribution of audiovisual works produced in the Nordic Region and deemed to have a satisfactory market/audience potential both in the Nordic Region and the global market.

6. The Board of the Fund has a duty to ensure an equitable long-term balance between the Nordic countries as well as in terms of gender and diversity in the works it chooses to finance. This is, however, subject to appropriate proposals for productions being presented.

7. The Board also has a duty to ensure an equitable long-term balance between the types of productions mentioned under no. 1 above. This is, however, subject to appropriate proposals for productions being presented.

§ 3 FUNDING CRITERIA

1. The evaluation of whether a production complies with the Fund's objectives should be based on an overall assessment of the project in terms of artistic and market criteria. An evaluation will also be conducted of whether the financial preconditions for the production are realistic, in terms of production, marketing and distribution. There are no particular requirements for joint Nordic themes, national quotas or requirements regarding the composition of artistic or technical personnel.

2. The prerequisites for eligibility for grants from the Fund include that the project has significant funding from at least one of the Fund's parties, that it has a realistic marketing plan and a distribution contract. These must meet the following criteria:

a) When a contract is entered into about participation in the financing of a feature-film production, cf. § 2, 1., a contract must already have been entered into for satisfactory distribution in two Nordic countries.

b) When entering into a contract to participate in the financing of a TV fiction production, cf. § 2, 1., a contract must already have been entered into with the Fund's financing partners in at least two Nordic countries for satisfactory distribution. If a TV company is in charge of the production, a contract must already have been entered into with at least one of the Fund's other financing partners.

c) When entering into a contract to participate in the financing of creative documentary films, cf. § 2, 1., a contract must already have been entered into for satisfactory distribution in two Nordic countries, including with at least one of the Fund's financing partners.

d) In principle, the Fund prioritises support for productions that have guaranteed themselves the widest possible distribution, primarily in the Nordic Region and secondarily in the global market.

3. Productions that do not receive support from the Fund during the production phase have the opportunity, based on a concrete assessment, to apply for funding for distribution and voice-overs for the Nordic Region.

4. The Fund cannot provide support for productions financed by Nordic TV companies that are not Parties to the Fund, except for productions co-funded by one of the Fund's financing partners from the same country.

§ 4 THE FUNDING PRINCIPLE

The Fund tops up funding for productions. The Fund participates in productions as a financial partner on a par with private investors, with a specified percentage share, which also applies to revenues, though only with respect to profits made. The funding is in the form of loans that must be repaid according to the rules stipulated in the Fund's guidelines.
